

Portico EmployerLink

<https://employerlink.porticobenefits.org/login>

If this is the first time logging in, you will need your 11-digit access code from Portico.

Each organization/congregation received this access code for EmployerLink. If you don't have this 11-digit access code, please contact Portico at (855) 658-4637.

Currently, the home page has a link to "Get Your Custom Comparison Report". This is a comparison report between your current (2013) rate and the 2014 Gold+ rate using your current compensation amounts.

This link will walk you through Effect on Plan Members, Cost to Your Organization and finally, Print Gold+ Report.

On the Print Gold+ Report page, there is the option to Print or Save Your Gold+ Comparison Report PDF.

There are also links to the 2014 Benefit Calculators.

- 2014 Benefit Costs Calculator – use this calculator to determine employer costs to sponsor a plan member.
- 2014 Compensation & Benefit Allocation Calculator – use this calculator to divide a total dollar amount into annual cash compensation & health, retirement, disability, survivor and retiree support contributions.

There is also the option to compare all the health care plan options.

On the Print All Options Report page, there is the option to download the 2014 Custom Comparison Spreadsheet.

Use this Microsoft Excel<sup>®</sup> file to project your organization's 2014 total benefit costs in greater detail. This tool includes:

- Customized information – with current compensation and benefit information for each of your organization's sponsored plan members as of Aug. 1, 2013
- Detailed projections of all benefit costs – including health, employer health savings account (HSA), retirement, housing equity, survivor, disability, and retiree support contributions;
- Comparisons – of all four health benefit options and three employer HSA contribution levels
- Adjustable inputs – let you add additional plan members or change compensation and benefit elections for current members, and project their benefits costs under different scenarios

On each Portico page on the right hand side toward the top, there are buttons for Help, Facebook, Chat with a Representative and Contact.

Also, the Contacts page has a "Start a Chat" button on the left hand side of the page.

To get to the calculators without signing into Portico EmployerLink:

On the Resources dropdown, under Budgeting for Benefits, Calculators

Link: <https://employerlink.porticobenefits.org/Resources/Calculators.aspx>
